

Abdul Jalil Soomro

Sr. Technical Manager / Sr. Principle Software Engineer

Summary

Detail Oriented programmer, I have over 8 years of software development experience in business solutions IT services, telecom, software consultancy, and software project development & delivery for top companies local & international across multiple sectors interacting with a diverse set of teams. I have developed a wide range of applications using AngularJS, Bootstrap UI, Spring, Spring MVC, Hibernate, Spring Security, Mobile Development, IBM WebSphere Commerce Development, Web Services, Google App Engine, Servlets, JSP, REST Development & API Usage, XML and Databases including SQL, MySQL, Programming, Database & Enterprise Design Patterns and I am familiar with SVN & Git as Source Code Version Systems. My core competency lies in complete end-to-end advanced application development (MVC Java EE + Javascript) using cutting-edge technologies of new projects as well as adding new functionality in existing projects and bug fixing existing software projects. I enjoy Software Development across all phases of software development, from requirements analysis to software design (architect) to software development (implementation), software testing and software maintenance/support. My career path includes teaching multiple programming languages. My skills reflect my excellent communication and presentation skills.

Abdul Jalil Soomro

Sr. Technical Manager / Sr. Principle Software Engineer

6 people have recommended Abdul Jalil

"Very Hardworking individual who has the knowledge delivery in time and very trust worthy consistent and reliable."

— **Wazir Ansari**, was Abdul Jalil's client

"He is well respected throughout the organization - being they "go-to" guide their tea, for a certain skill, for getting things done, for meeting short deadlines, for accomplishing a task, etc). Throughout the time I've know him, he has shown me time and again that he is a positive, motivated leader with amazing potential. During his time here, he played an important role in (project - launching a new product line, Provide technical support to team , designing the web site, gaining accolades for the customer service department, invigorating the volunteer program,). In fact, he was so affective in this organization. His great attitude, dedication and excellent potential, I would heartily recommend that you accept as Technical Development Lead ."

— **Vijay Kumar**, worked directly with Abdul Jalil at Sapphire Consulting Services

"An excellent senior developer who is well-equipped with the knowledge of software development process and possesses excellent problem solving and algorithm designing skills . I would surely recommend him for any top level position in any prestigious organization."

— **Saif Asif**, worked directly with Abdul Jalil at ARPATECH (Pvt) LTd

"Myself and Abdul Jalil were in separate teams during my tenure in Arpatech, but we had discussion regarding on our on-going projects and daily work issues. I have always found Abdul Jalil the best solution provider, his strength of thinking out of the box makes him more strong. He will definitely put values where ever he works. I wish him success for his future endeavors."

— **Noman Ali Abbasi**, worked with Abdul Jalil at ARPATECH (Pvt) LTd

"I worked with Abdul Jalil for a very short assignment in WebSphere Commerce. I found him hardworking, task oriented and keen to learn new technologies. He shows great skills in Java, J2EE and WebSphere. He was one of the reliable member in my team. I recommend him for any job required sharp thinking, great learning and quick delivery."

— **Malik Sarfaraz**, managed Abdul Jalil at Royal Cyber Inc.

"Abdul Jalil Soomro was one of our talented resource in Royal Cyber. During the time of our acquaintance, I found him to be consistently pleasant and tackling all assignments with dedication and a smile. His experiences have included working on Open Source, J2EE (Hibernate/Struts), SQL, and web technologies."

— **Abdul Ahad**, managed Abdul Jalil indirectly at Royal Cyber Inc.
